Hughes Europe Showcases the Best in Network Solutions for Lottery Operators at the European Lottery Congress 2011

Milton Keynes, UK, 06 June 2011—Hughes Europe, operating subsidiary of the global leader in satellite broadband solutions, Hughes Network Systems, LLC (Hughes), will demonstrate the best of today’s managed network services and solutions at the European Lottery Congress and Trade Show, to be held at the Marina Congress Centre, Helsinki, Finland on 5-9 June 2011.

A member of the European Lotteries Association (ELA) and the World Lottery Association (WLA), Hughes today provides managed network services for more than 120,000 lottery sites across Europe and the U.S., counting among its customers major lottery operators GTECH Corporation, and Camelot Group in the UK. Additionally, Hughes has provided its market-leading broadband satellite network solutions to lottery operators in Latin America, Asia and Europe.

“At the Show we will look to help current and prospective lottery operators select the most appropriate technologies based on their individual needs and budgetary requirements, including satellite, DSL, WiMax, GPRS, 3G and 4G,” said Christopher Britton, managing director, Hughes Europe.

“We are totally committed to the lottery sector and recognise the key importance of the EL Congress and Trade Show in the industry’s calendar,” added Britton. “Our unrivalled track record demonstrates that we fully support lottery companies by delivering the overall reliability, availability and individual site flexibility essential for success throughout the license period.”
